PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience designing and delivering scalable enterprise web applications using Java, Spring Boot, Angular, React, REST APIs, Hibernate, and MySQL. Proven track record building healthcare and pharmacy-domain platforms, including patient portals, role-based access systems, analytics dashboards, and microservices architectures.

Skilled across the full stack — backend service development, API design, authentication and authorization systems, frontend integration, and enterprise application architecture. Experienced with Angular, AngularJS, React, the Spring ecosystem, and Python Flask. Adept in Agile delivery, production debugging, performance optimization, and cross-functional collaboration. Currently focused on AI-assisted software development, LLM-integrated applications, developer productivity tooling, and modern, API-first backend architecture.

CORE TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, Python

Backend & APIs: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST APIs, Microservices, Flask

Frontend: React, Angular, AngularJS, HTML5, CSS3, JavaScript, jQuery

Database: MySQL, Stored Procedures

Tools & Platforms: Git, Maven, Webpack, VS Code, Eclipse, Postman

AI & Modern Engineering: AI-assisted development, LLM-integrated applications, prompt engineering, API-first architecture, AI-enabled analytics

PROFESSIONAL EXPERIENCE

Technical Lead — HealthAsyst

Jul 2018 – Present

Healthcare & pharmacy-domain enterprise platforms — patient portals, pharmacy systems, analytics dashboards, and microservices

- Designed and developed RESTful APIs using Spring Boot, Hibernate, and Java to support enterprise healthcare workflows
- Built reusable, scalable frontend modules using Angular, AngularJS, and React, improving development velocity across teams
- Implemented authentication, authorization, and role-based access control (RBAC) systems for secure patient and provider portals
- Integrated frontend applications with backend REST services and enterprise workflows to streamline end-to-end functionality
- Contributed to scalable, microservice-based healthcare applications supporting high-availability production environments
- Developed analytics-focused web applications using React and Python Flask for data-driven decision-making
- Leveraged GenAI-assisted development workflows to increase engineering productivity while preserving business-critical logic and code quality
- Drove Agile ceremonies including sprint planning, production support, and cross-functional collaboration with QA, product, and design
- Improved application maintainability through reusable UI components and modular backend service design

Tech Stack: Java, Spring Boot, Spring MVC, Angular, AngularJS, React, Python Flask, Hibernate, MySQL, Maven, Git

Associate Software Engineer — mscripts Systems India Pvt. Ltd.

Nov 2017 – May 2018

Pharmacy management and communication platforms for healthcare and pharmacy clients

- Enhanced AngularJS-based web applications and built reusable UI modules to improve development efficiency
- Implemented backend integrations and business workflow logic supporting pharmacy operations
- Developed and optimized SQL stored procedures and database operations

- Resolved production defects and delivered client-specific enhancements under tight deadlines
- Contributed to responsive web interfaces and third-party API integrations

Tech Stack: Java, Spring MVC, AngularJS, MySQL, HTML5, CSS3

Associate Software Engineer — Keyfalcon Solutions Pvt. Ltd.

Jun 2016 – Nov 2017

E-commerce and booking platforms built with Angular and Spring Boot

- Developed frontend modules using Angular and CSS for customer-facing e-commerce features
- Implemented REST APIs and service-layer functionality to support core booking workflows
- Built DAO layers using Hibernate and JPA for reliable data persistence
- Worked across frontend-backend integrations and API communication
- Participated in application architecture design and development planning

Tech Stack: Java, Spring Boot, Angular, Hibernate, MySQL

EDUCATION

Master of Computer Applications (MCA) — Sikkim Manipal University, 2014

Bachelor of Science, Physics — Dibrugarh University, 2011
